Network IQ | Alliance

Navigating the future

ASSESSING THE CURRENT STAGE AND DEFINING NEXT STEPS FOR THE NIQ ALLIANCE

The workshop will focus on educational quality through the standardization and certification of nIQ courses. Facilitated by experts in the field, the event will provide a platform for collaboration and innovation, aiming to **enhance educational excellence** and foster a community of skilled educators dedicated to advancing the nIQ curriculum.

Network IQ Methodology

Network Intelligence (nIQ)™ – system-change methodology developing digital competencies at the ecosystem level for innovation and networking. Network intelligence is a set of skills which define a networking capacity to build relations and to turn people in networks into collaborators who help an individual or a team increase performance, innovate, and grow with a purpose in mind. The goal is to empower purpose-driven entrepreneurial people to amplify growth opportunities from the networks they build to innovate better, faster and have long-term resilience.

About Network IQ Alliance

Network IQ Alliance is a community of entrepreneurial universities from Spain, Poland, Latvia, Ireland and the UK - an innovative small and medium-sized enterprise (SME), a network of research institutes, an industry network, and a global network of science and technology parks in 80 countries.

Network IQ Alliance is funded by EIT Health and the European Commission.
